CAUTION: External email. Do not click links or open attachments unless you verify sender.

Jason-

When you click some of the links at the end of the WVDEP Permit & Hearing Appeals Guide – you are sent to some Russian site (or at least it looks Russian to me).

Here is the link from the WVDEP website that I used to pull up the guidance. <http://dep.wv.gov/environmental-advocate/Documents/Permit%20Hearings%20and%20Appeals%20Guide.pdf>

Let me know if when you open the guidance & go down to the bottom of the guide & hit links in the water area such as the one for WV code and rules for DWWWM you get sent to the right place or that Russian site. While not good for you all, I am hoping it isn't just me & something wrong with my EPA computer.

Thanks, Mary
